Imafidor Divinefavour

Software Engineer & Digital Creative

imafidorf@gmail.com • Abuja, Nigeria • Available for Freelance and Projects

PROFILE

Software Engineering student with a passion for building digital solutions and creating meaningful user experiences. Experience spans web and mobile application development, UI design, graphic design, branding and technical support — turning ideas into functional, visually appealing digital products.

EXPERIENCE

IT / Software Engineering Intern

Office of the Auditor-General for the Federation — Komtemporary Konsulting Ltd | 2026 – Present

Gaining practical experience in an IT office environment through hands-on assignments. Currently building a responsive, dynamic personal portfolio using HTML, CSS and JavaScript while developing professional software development practices.

Online IT / Software Development Experience

Inamigos Foundation, India — Remote

Worked within the graphic design team creating flyers and visual content for the foundation's social media platforms. Participated in the organization's points system and fundraising initiatives, gaining experience in remote teamwork and digital content creation.
